ZIVA®

THE WAY TO LIVE™

ZIVA® is an elite-performance sports and wellness brand. Distilled to its essence, our brand is driven by the peace of harmony and the joy of living, expressed most powerfully for us through sport, movement, and strength. This essential drive underpins our efforts to improve the physical and mental health of people all around the world.

This philosophy is reflected in our name. The “ZI” in ZIVA comes from the name of the founder of Daoism, an ancient Eastern religion that emphasizes harmony; living in accord with both the nature around you, and with your own nature; and cultivating an attitude of gratitude and happiness by following what it refers to as “The Way.” The “VA” in ZIVA is the second half of the Spanish word “viva,” which means to live fully, to strive with all your heart, and which is an exclamation proclaiming the absolute joy of life and all that it entails.

Our philosophy is embodied in our products. Their premium, progressive design is made to exist in beautiful, artful harmony with high-class gyms and modern homes while their rugged, high-performance functionality invites movement and energetic exertion.

And our philosophy is lived by every team member every day as we work in harmony with one another, joyously striving to bring holistic fitness to the world.

This is ZIVA and our WAY TO LIVE.

ZIVA: PAST AND PRESENT

The ZIVA® Journey began in 2008 in a single, out-of-the-way gym from our earliest days, we sought to provide athletes and fitness enthusiasts with a transformational platform that could empower their fitness journey.

The things we practiced in the gym forged the values at the core of our company: innovation, inspiration, and precision. Our business has changed radically over the past decade and a half; today we create commercial products tailor-made for the world's most recognizable gym brands and craft gorgeous exercise equipment especially made for the at-home athlete. We still have that out-of-the-way gym, but it's now part of a global corporation where we design, manufacture, market, and ship over 1,000 SKUs in over 80 markets.

And though we have grown, the values we first forged in the gym are still with us, now embodied in our innovative solutions, inspirational designs, and precision manufacturing. Our team of powerful, passionate, and positive people has grown many times over, but still all practice the ZIVA Way to Live.

ZIVA TRAINING CLUB

At ZIVA®, our aim isn't just to grow a fitness business, it's to build a fitness legacy that ensures the future vitality of the industry we love so much. That's why we invest so heavily in high quality content, including exciting, engaging instruction for at-home athletes, and elite-level professional education and programs for the fitness pros using our equipment in commercial settings every day to improve the lives of those they train.

The ZIVA Training Club is a constantly growing worldwide collaboration of top-level trainers, innovators, and competitors making training content that uses proven methodologies, science-based programming, and fantastic production values that deeply engage athletes at all levels. Curated by our Director of Education, the content found here features professional ZIVA trainers, brand ambassadors, and presenters who deliver world-class training that turns every viewer into a VIP client.

ZIVA EXERCISE LIBRARY

This yellow icon identifies home and commercial products featured in the ZIVA Exercise Library. The ZIVA Exercise Library is an online database of exercise demos and tutorials built around ZIVA kit to inspire fresh approaches to exercise while mitigating unnecessary risk of injury.

ZIVA EXERCISE PROGRAMMING

The gray ZEP icon marks home and commercial products featured in programmed exercise templates built to guide enthusiasts and trainers through sample workouts and routines. ZIVA Exercise Programming content may be presented in printed or video formats.

ZIVA® AND THE COMMITMENT TO SUSTAINABILITY

Since our very inception, the ZIVA vision of wellness has been holistic, compromising not only mental, physical, and spiritual health, but the health of the world around us, as well. We have lived our commitment to sustainability from the first ZIVA showroom – One Wellness – which was designed to be carbon neutral all the way back in 2008. It was the very 1st carbon neutral gym in Asia, and the 2nd in the world. Before many had heard of carbon neutrality, it was a personal point of pride for us and a symbol of our commitment to a better world. We renew that commitment every year, using ever more environmentally friendly materials up and down our supply chain.

Today, 100% of our retail packaging is cardboard made from 100% recycled paper and 100% water-based inks. This makes our packaging completely compostable and biodegradable. Within the next year, we will have phased out all plastic in our packaging, as well, making less waste and a more positive impact.

But there's more to sustainability than just packaging. We're also working to tackle waste and improve efficiency in other ways. We're reconfiguring our manufacturing processes, making them leaner and cleaner. We're installing the infrastructure necessary to achieve total carbon neutrality in our China HQ by 2024, and investing to make our factories and our entire supply chain carbon neutral by 2030.

However, we know that we can't do it alone; to create a greener future, we need the help of those who will inherit it. That's the impetus behind our Gym in a Box, a program that puts sustainably produced ZIVA workout gear into schools where young athletes can share in our commitment to their health and to the health of the great wide world. This commitment to sustainability is a natural extension of the ZIVA Way to Live.

COMMERCIAL

Commercial quality materials and manufacturing with iconic, eye-catching design: that's been the soul of ZIVA® since the very beginning. The products in our Commercial Line are all built for the most demanding environments: gyms where clients come to be inspired, to train hard, to build better bodies, and better lives. We've made the products in this Line attractive, inspirational pieces that are rugged and durable, tough enough that gym-goers can grind out an excruciating set and drop their gear to the floor, while gym owners can feel proud watching them because they have the confidence that their equipment is made to last. From racks to rigs to bells, bumpers, bars, bags, and balls, every piece in the Commercial Line is designed to inspire, to lead users and owners to new heights of excellence and higher paths along The Way.

INFINITY

The INFINITY Series is the pinnacle of ZIVA®'s functional fitness, blending unparalleled versatility with a design ethos that redefines what fitness equipment can be. Each piece in the Series transforms a gym's space into a hub of beauty and innovation bursting with boundless functional training possibilities. These dynamic workout stations offer a modular approach to workouts and equipment storage, and invite users into a world where design meets function in the pursuit of fitness excellence. Used in conjunction with the INFINITY Series' many accessories, these pieces become infinite in the number of workouts they facilitate.

With INFINITY, users can go BEYOND.

INFINITY WALL MOUNTED MODULAR SYSTEM 121

The INFINITY Wall-Mounted Modular System 121 is a modular solution that turns fitness facility walls into centers for storage and training that can change on-the-fly for unparalleled functionality. Designed to utilize and beautify underused wall spaces, this piece offers the ability to anchor suspension trainers or resistance bands at a broad range of heights and angles, can serve as a body weight exercise or stretching station, or can provide a versatile storage solution capable of storing any and every form of functional fitness equipment. Its real promise, though, is in its ability to do all of that simultaneously, all with a sleek aesthetic is not just a statement of style but a testament to a gym's commitment to blending form with function.

Order Code	Item Description
ZFS-XWMT-6715	INFINITY Wall Mounted Modular System 121

Specifications		Expandable storage solution that maximizes floor space. It can be used as both a storage and training rack and can be infinitely expanded according to the need. Made of 3mm steel pipe and wooden boards.
Color Options		Black powder-coated finish with grey detailing
Dimensions		121cm x 30cm x 243cm - 86kg
Warranty		Limited 10 year warranty on frames and welding; 1 year on plastic parts

INFINITY WALL MOUNTED MODULAR SYSTEM

The INFINITY Wall reimagines and reinvents the potential of fitness facility walls with its unparalleled modularity, functionality, and its premium design. Designed to utilize and beautify underused wall spaces, the INFINITY Wall is engineered for the elite. It offers the ability to anchor suspension trainers or resistance bands at a broad range of heights and angles, and can serve as a body weight exercise or stretching station, but it truly shines as a dynamic and versatile storage solution capable of storying any and every form of functional fitness equipment. Its sleek aesthetic is not just a statement of style but a testament to ZIVA®'s commitment to blending form with function, and is an essential centerpiece for any high-end gym or wellness facility seeking to offer their clients a unique and engaging fitness experience.

FREE WEIGHTS

The timeless training tools that have inspired fitness revolutions throughout the ages and throughout the world. Dumbbells, barbells, weight discs, and more form the foundation of strength and hypertrophy training.

At ZIVA, free weights are our bread and butter. For over a decade, we have designed, manufactured, and delivered free weights to fitness facilities of every size and description all over the world. Over the years, we have earned a reputation for commercial quality, precision-calibrated free weights that stand up to the most intense, high-traffic environments. Our free weight products now include various sizes, shapes, and materials to offer something for every aesthetic and budget.

The ZVO Series delivers the pinnacle of performance and quality with second-to-none design and construction made especially for gyms seeking the best of the best.

The SL Series brings an attractive mid-range selection of products that have both style and terrific performance.

And the XP Series offers no-nonsense, always great commercial quality on dumbbells and barbells that make a fantastic foundation to any gym’s free weight section.

> ZIVA is Basic Fit's preferred free weights and functional training products partner in Europe. ZIVA delivers premium quality products and customized solutions for Basic Fit and our members and supports our growth in Europe.

ZVO SOLID STEEL URETHANE DUMBBELLS

ZIVA® ZVO Solid Steel Urethane Dumbbells use our classic, iconic dumbbell design and are made as a single, ultra-durable piece of solid steel. Long-lasting urethane-coated heads deliver unparalleled durability; are UV-, corrosion-, and tear-resistant; and provide superior color accuracy when reproducing custom logos. Scratch-proof chrome-finished handles with grip-assisting hill knurling round out this elite design, serving up a package that is an immediate indicator of a facility's continual commitment to the highest quality.

ZVO SOLID STEEL URETHANE BARBELL

ZIVA® ZVO Solid Steel Urethane Barbells take the age-old straight barbell design and crafts them with elite premium quality materials. Each barbell is cast from a single piece of solid steel, providing unsurpassed durability that is made even better by the use of a urethane-coat that features tear, UV, and water resistance. The bars themselves feature a scratch-resistant hard chrome finish and grip-assisting knurling on the sides with a knurl-free center. When set alongside ZVO Solid Steel Urethane Dumbbells, gyms gain a unified, elite look as well as a complete free weight package that is sure to make members proud.

ZVO URETHANE GRIP DISCS

The ZIVA® ZVO Urethane Grip Disc, made to fit any standard Olympic Bar, is a precision cast premium elite disc that features sleek, eye-catching design for its handles and face, easy ID numbering, beveled edges and three handles for easy pick up from any angle, and an ultra-long-lasting UV-, water-, and tear-resistant urethane coating that stays looking newer for longer. This urethane coat also has the added benefit of giving a bit of bounce, protecting not only the steel plate underneath but the surrounding environment, as well, so a dropped weight disc doesn't necessarily mean a dented floor.

SL URETHANE DUMBBELLS (2KG INCREMENTS)

The ZIVA® SL Urethane Dumbbells use a classic dumbbell design similar to the ZVO, with long-lasting UV-, water, and tear-resistant urethane-coated heads, but offer an alternative look and more muted range of highly durable color choices. Combined with hard chrome-finished handles and grip-assisting knurling, these dumbbells deliver a unique aesthetic that features iconic ZIVA design language and an undeniably premium feel. Available in 2kg increments from 2-60kg, a complete set forms a gym's firm foundation.

XP URETHANE DUMBBELLS (1-10KG)

ZIVA® XP Urethane Dumbbells are the no-nonsense foundation of resistance training. In increments of 1kg from 1-10kg, they are perfect for fast paced, high intensity workouts and warm-ups. They use our most traditional dumbbell design: scratch-proof, chrome-finished handles with grip-assisting knurling along the center of the handle, and solid steel heads coated in long-lasting UV-, corrosion-, and tear-resistant urethane. This coat is a product of modern material science and gives XP Urethane Dumbbells a slight bit of bounce. That means if a dumbbell is dropped during an intense training session, it may be the difference between a dent in the floor or simply a scuff. All in all, these are a timely take on a timeless training classic.

XP URETHANE BARBELLS

ZIVA® XP Urethane Barbell is an updated yet no-nonsense approach to a pair of timeless classics. These high quality barbells use our most traditional design: scratch-proof, chrome-finished handles with grip-assisting knurling and a knurl-free center, and solid steel heads coated in long-lasting UV-, corrosion-, and tear-resistant urethane with weight IDs prominently displayed on central inserts. This coat is a product of modern material science and gives XP Urethane Barbells a slight bounce if dropped, which may make the difference between a dent in the floor or simply a scuff. All in all, they are a timely take on a timeless training classic.

SL RPU DUMBBELLS (1-10KG)

ZIVA® SL RPU Dumbbells update timeless dumbbell design with a marvel of modern material science: RPU. This coat, which serves as a protective cover on the dumbbells' solid steel heads, combines the bounce of rubber - a crucial quality for protecting the weights, gym floors, and users - and the ultra-high durability of urethane, making them UV-, corrosion-, water-, scratch-, and tear-resistant, as well as longer lasting than any competitor in its class. Scratch-proof, chrome-finished handles with grip-assisting knurling along the center of the handle give excellent usability and large, easy ID weight numbers means they also look as good as they perform. In 1kg increments from 1-10kg, these dumbbells are perfect for fast paced workouts and warm-ups.

SL RPU BARBELLS

ZIVA® SL RPU Barbell is a timeless classic updated with a marvel of modern material science: RPU. Its RPU coat serves as a protective cover on the barbells' solid steel heads and combines the bounce of rubber - a crucial quality for protecting the weights, gym floors, and users - and the ultra-high durability of urethane, making them UV-, corrosion-, water-, scratch-, and tear-resistant, as well as longer lasting than any competitor in its class. Scratch-proof, chrome-finished bars with grip-assisting knurling and a knurl-free center make for excellent usability, and large, easy ID weight numbers means these barbells also look as good as they perform.

ZIVA

EX HYPER EXTENSION BENCH 2.0

The ZIVA® EX Hyper Extension Bench 2.0 provides the ultimate stability for back-bending exercises. Its floor-gripping rubber feet keep it firmly in place even as users adjust the high quality cushion height and lock in on the polished steel foot plate or use the built-in bars. Easy to move about the gym thanks to its attached PU wheels, the Hyper Extension Bench 2.0 goes where it's needed, whether by the squat rack or lifting platform for extra powerlifting accessory work, by the warm-up and stretching zone for core and flexibility work, or anywhere else it comes in handy. However it's used, this bench's features and looks elevate the typical hyper extension platform and manage to lift the surrounding gym environment, too.

Order Code	Item Description
ZEX-XHEX-6764	EX Hyper Extension Bench 2.0

Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

STORAGE

Storage solutions that serve double duty as organizational hubs to safely, securely store all manner of pieces, and as showcases on which to display ZIVA®'s terrific designs and artful equipment.

All of our storage solutions are crafted from unbreakable, unshakable steel and PVC, and come with a black powder coat that is corrosion and scratch-resistant so they stay looking attractive and new for years, even in the highest traffic environments. We offer a range of designs to meet the needs of all kinds of aesthetics.

Our EX Series offers our sleekest, most modern designs and materials, and the ST and ST2 Series deliver a unique and unmistakable curved rack, while the XP Series brings no-nonsense dumbbell storage and highly versatile, highly flexible multi-functional storage racks. But all ZIVA® storage options speak the same design language as the rest of our equipment, leading to a unified look and feel that lends their surroundings an inspiring air.

> Smart Fit selected ZIVA to be our official and strategic partner in Brazil and all over Latin America. The ZIVA combination of innovative designs, excellent product quality and service is a winning combination for us at Smart Fit all over the continent.

XP MODULAR STORAGE RACK

The XP Modular Storage Rack System is the gold standard for storage. Built from steel tubing and thick plate steel, it holds anything and everything. From plates to dumbbells, kettlebells, bags, and balls of every size, this Storage Rack System keeps all manner of gym equipment on hand and perfectly organized. Even usually cumbersome balls are kept perfectly in place thanks to its specially designed steel tube shelving. But its most amazing feature is its customizability. If your facility has more equipment than a single set of shelving can handle, this modular system is simple and easy to expand, and saves space versus two separate storage solutions.

Dimensions		187cm x 86cm x 182cm - 120kg
Warranty		Limited 10 year warranty on frames and welding; 1 year on plastic parts

BUMPERS AND OLYMPIC BARS

Both timely and timeless, the drive to be stronger, lift more, and reach higher is fueled by the exceptional bumpers and bars found here and catering to the growing population of strength-focused users.

Our selection of bumpers and bars deliver commercial quality made to meet the needs of today's Olympic lifters, powerlifters, and heavy strength users. Heavy deadlifts and squats, drops from Olympic heights, and bar-bending, PR-smashing loads are the order of business when choosing this equipment.

The ZVO bars and bumpers found in this section are the pinnacle of performance and quality with second-to-none design, materials, and construction made especially for gyms looking for the best of the best.

The SL Series of bumpers brings attractive mid-range style and terrific, long-lasting performance.

XP2 bumpers bring no-nonsense, no frills, and always great commercial quality to Olympic lifters looking for an economical solution.

All these choices offer what are today essentials for any gym hoping to attract dedicated strength users who will undoubtedly become gyms' greatest evangelists. Every bar and bumper here has been designed so lifters can achieve new highs of performance that will make them loyal to the facility that helped them get there.

> ZIVA offers Lift Brands a solution by ensuring access to a large range of products that our franchises love. The product and price is one of the best in the business but the extra attention, care factor and willing to truly be a partner and not just a vendor is what makes ZIVA a great company to do business with.

SPECIALTY OLYMPIC BARS

The ZIVA® Specialty Barbells, including the Multi-Grip Swiss Bar and Squat Safety Bar, are all made with both beginners and pros in mind. Each of these heavy-duty bars come with a rust- and scratch-resistant coating and tough, Olympic-sized chrome sleeves with needle bearings for smooth rotation, but their true value lies in the greater safety and higher weights that they allow, especially for those with mobility challenges. The Multi-Grip Swiss Bar allow lifters to hit rarely reached angles while reducing stress on wrists, elbows, and shoulder joints. The Squat Safety Bar cushions necks and shoulders particularly for those with shoulder mobility issues. Both these bars are indispensable tools for seasoned lifters and those first learning to lift.

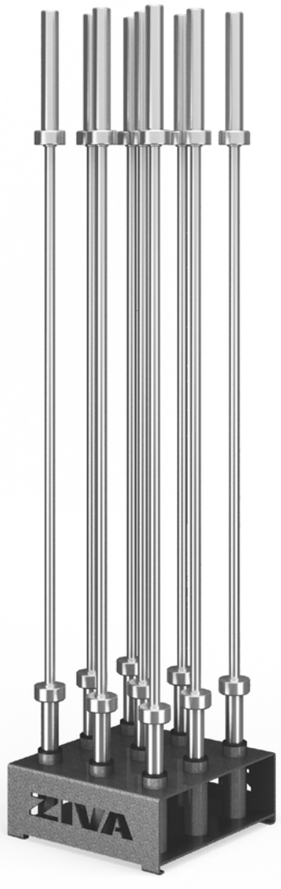

Order Code	Item Description
ZXP-SSBR-1503	Safety Squat Bar
ZVO-PBHC-2933	Multi-grip Swiss Bar

OLYMPIC BAR STORAGE

The ZIVA® Performance Olympic Bar Storage, crafted with heavy-duty steel plate with a long-lasting, premium powder-coated finish, keeps up to 9x bars perfectly arranged in a vertical configuration that takes up minimum floor space for maximum efficiency, thus keeping even high-traffic commercial gyms well organized for a clutter free environment every visitor is bound to take note of.

Order Code	Item Description
ZXP-OBSS-7217	Olympic Bar Storage Stand

Specifications		Olympic Bar Rack made from steel plate
Coating		■ Black powder-coated finish ■ Charcoal powder-coated finish
Storage		Fits up to 9 Olympic bars
Dimensions		46cm x 46cm x 19.5cm - 32kg
Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

XP T-BAR HANDLE

The XP T-Bar Handle, typically used in conjunction with a landmine attachment, allows users to achieve deeper rows, higher loads, and faster development of upper back muscles. Made to slip easily onto any Olympic bar, the XP T-Bar Handle includes a unique tightening screw that locks it into place on a bar's collar. It stays firmly in place, never sliding haphazardly so users can row, rest, repeat, and even adjust weight without ever having to reset or readjust.

Order Code	Item Description
ZXP-CPHD-1976	XP T-BAR HANDLE

Coating		High-quality seamless steel pipe in black powder-coated finish
Color Options		Black powder-coated finish with rubber handles
Weight Loading	kg	100kg
Warranty		Limited 1 year warranty

POWER RACKS

Intense, heavy weight sessions inspire both those lifting the weights and those around to witness the lifts, and the supremely stable, safe, and sturdy equipment perfectly suited to facilitate those lifts serves as a beacon of greatness to be reached for.

Our collection of racks and platforms are heavy-duty commercial quality products designed for heavy loads and heavy use. This is where the truly impressive weights get racked, re-racked, and dropped, where the sweat pours nearly as heavy as the plates, and where athletes can feel safe and secure pushing themselves to the very limit.

The XP Power Rack with Storage and the XP Power Rack Wooden Lifting Platform serve as the ultimate benchmark for what a rack and platform combo specialized for heavy lifting should be, with the Power Rack's supremely stable structure further reinforced by the precision-bent gussets of the Lifting Platform.

The XP Half Rack Cable, meanwhile, delivers the same stability while eschewing specialization, offering instead the extreme flexibility and versatility of cable training attached directly to the traditional rack structure. This is an incredible innovation that empowers fast moving, wide-ranging routines, and that helps gyms truly make the most of their floorspace.

> Shout out to ZIVA not only for great bright solid product in terms of quality logos and number standing out but looks super solid. I had an over sight in terms of how many plates I needed for 45 plate loaded machines and 10 power racks. They had what I was shorting in the warehouse which was 3 times my original order and had them on a truck the next day without even getting paid. Trust. Tells you a little about the company ZIVA.

Kelly Maclachlan

Golds Gym Calgary President

XP POWER RACK WITH STORAGE

The ZIVA® XP Power Rack with Storage is a heavy-duty, no-nonsense training solution that empowers powerful, fast workouts thanks to its built-in storage. Made with scratch-, rust-, and corrosion-resistant powder coated thick steel tubing with laser-cut holes and numbering, a steel tube pull-up bar, and 8x chromed storage posts, this Power Rack serves as the most durable, safest and stablest arena for heavy-lifting, and can be customized to create a totally tailored training platform with ZIVA XP Rig Attachments. This unique design lets gym owners increase storage and add training tools to craft a gym centerpiece that does everything they need it to do.

Order Code	Item Description
ZXP-RKFL-7208	XP Power Rack with Storage

Specifications	Laser-cut holes (50mm spacing) and numbering system, hard-wearing powder-coated finish 3mm thick steel 75 x 75mm frame, 24mm zinc-coated hardware, eight stainless steel bumper plate storage posts, one pair of J-Cups, additional holes at base for band or accessories attachment, must be bolted to the floor, two inside safety spotter arms (UMHW plastic protection coating) and single pull-up bar & cross beam

Warranty	Limited 10 year warranty on frames and welding; 1 year on plastic parts

XP POWER RACK WOODEN LIFTING PLATFORM

The ZIVA® XP Power Rack Wooden Lifting Platform is the ultimate powerlifting platform. Made with notches perfectly placed to fit the ZIVA® XP Power Rack, the Platform's extended wooden center gives athletes a super-steady arena on which to perform deadlifts, squats, or bench press, while the shock absorbent rubber tiles on either side are made to handle the heavy weights for which deadlifts are famous. The entire structure is bound tightly together in a steel frame with precision bent gussets, and the entire structure can be easily bolted together and requires no bolting down.

Order Code	Item Description
ZXP-PRCR-8018	XP Power Rack Wooden Lifting Platform 50mm

Specifications	Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground
Color Options	Black / Wood

Warranty	Limited 10 year warranty on frames and welding; 1 year on plastic parts

XP SMALL FOOT PRINT HALF RACK WOODEN LIFTING PLATFORM

The XP Small Foot Print Half Rack Wooden Lifting Platform builds on the XP Small Foot Print Half Rack with Storage to make a specialty squat and deadlift platform that maintains a smaller than normal footprint. Even with its smaller size, the Platform's wooden center provides a super-steady arena and its shock absorbent rubber tiles on either side handle the heavy weights that deadlifts and Olympic lifting are famous for. Everything is bound tightly together in a steel frame with precision bent gussets and notches perfectly placed to fit the XP Small Foot Print Half Rack with Storage, and the entire structure can be easily bolted together and requires no bolting down.

Order Code	Item Description
ZXP-HRCR-3601	XP Small Foot Print Half Rack Wooden Lifting Platform 50mm

Specifications	Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground

XP WOODEN LIFTING PLATFORM FOR RIGS

The ZIVA XP Wooden Lifting Platform for Rigs is a specialty squat and deadlift platform made to fit any style and size of rig. This lifting platform, with a super-steady wooden center and shock absorbent rubber side tiles, is the height of versatility and usability. Specially made to handle heavy weights, its structure is reinforced by a steel frame with precision bent gussets. The XP Lifting Platform for Rigs can be easily bolted together and requires no bolting down, making it a simple and flexible addition to any gym.

Order Code	Item Description
ZXP-PRCR-8990	XP Wooden Lifting Platform for Rigs 50mm

Specifications		Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground

XP SMALL FOOT PRINT OLYMPIC WOODEN PLATFORM

The ZIVA XP Small Foot Print Olympic Wooden Platform gives Olympic lifters a dedicated space without sacrificing valuable floor space. This heavy-duty platform features a super stable central bamboo platform designed to give the smallest bit of flex underfoot while the shock absorbent rubber side tiles safely dissipate the incredible force of Olympic weights being dropped from overhead heights. The entire platform is tightly bound on each side with steel framing and precision bent gussets, and is easily bolted together while requiring no bolting down. For gyms looking to attract Olympic lifters and save space, this platform is a must-have.

Order Code	Item Description
ZXP-OLCR-2035	XP Small Foot Print Olympic Wooden Lifting Platform 50mm

Specifications		Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground

XP SQUAT RACK

Our XP Squat Half Rack with tough 60mm laser cut steel frame and wide, stable base delivers much of the functionality of a wall- or floor-mounted rig without requiring any additional installation and taking up much less space. Users can push themselves to new limits on squat, bench press, overhead press, and more in this Rack without worrying what will happen if they have to do a rough re-rack; it is made to withstand the rigors of elite training day in, and day out. And the adjoining pull-up bar makes supersetting with pull-ups as easy as users raising their hands!

Order Code	Item Description
ZXP-RKFL-7207	XP Squat Rack

Specifications		Laser-cut holes (50mm spacing) and numbering system, hard-wearing powder-coated finish 3mm thick steel 75 x 75mm frame, 24mm zinc-coated hardware, one pair of J-Cups, and single pull-up bar & cross beam. *This is suitable to combine with XP Safety Arms.*

Dimensions		127cm x 160cm x 237cm - 95kg
Warranty		Limited 10 year warranty on frames and welding; 1 year on plastic parts

XP OLYMPIC WOODEN LIFTING PLATFORM

The ZIVA® XP Olympic Wooden Lifting Platform caters to the ever increasing number of athletes who practice the Olympic lift and all of its accessory movements. This ultra-heavy-duty platform features a central bamboo platform designed to give lifters the smallest measure of flex underfoot while the sides are made of shock absorbent rubber tiles made to take the extreme beating of heavy weights dropped from high heights. All panels are tightly bound in a steel frame with precision bent gussets that are easily bolted together but require no bolting down. For any gym that seeks to attract the growing crowd of Olympic lifters, this platform is a must-have.

Order Code	Item Description
ZXP-OLCR-8950	XP Olympic Wooden Lifting Platform 50mm

XP WALL SYSTEM

Modularity means versatility, and versatility means the ability to meet a diverse range of workout needs, whether for functional, strength, or body weight work.

The XP Wall System offers fitness facilities a way to build workout walls that are uniquely catered to both their space and their membership. Whether they host suspension training classes are have a CrossFit focus; whether they are trying to incorporate more storage or more flexibility in their facility; whatever their aim, the XP Wall System can get them there.

The Wall consists of 4x distinct modules meant to be paired in any variety depending on a gym's needs. This includes options for heavy-duty, highly stable strength training; flexibility and body weight training; smooth sliding cable training; and storage coupled with functional fitness.

This highly versatile system is not only customizable with these 4x modules, but is also compatible with all XP Rack Attachments, opening the door to an unparalleled level of personalization.

> At Anytime Fitness we value strong partnerships, and we truly treat our vendors, as partners. ZIVA's strong commitment to excellence, their values and expertise, are just some of the reasons we have chosen Ziva to support our growth across our International markets.

Patrick O'Brien

Director of International Vendor Relations

ANYTIME FITNESS

XP WALL SYSTEM

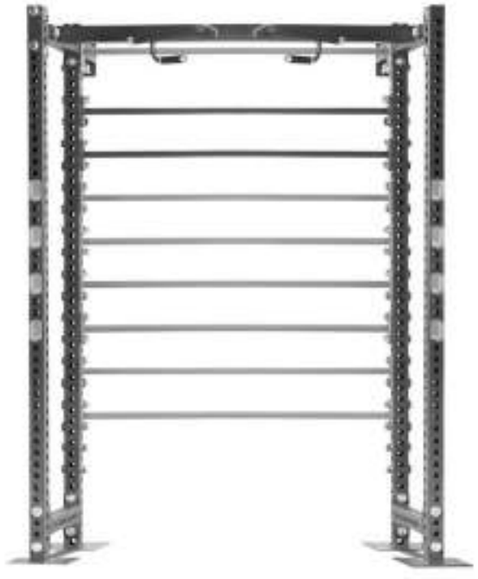

Transform underused wall space into prime gym real estate with the all-new XP Wall System. A completely customizable modular system including a Half Rack, Training Bars, Storage Rack, Calisthenic Bar, and Cable Machine, the XP Wall can be as large or as small as needed based on a given gym's space, and the modules can be mixed and matched to meet the needs of a facility's clientele and programming focus. Every piece in the XP Wall System is compatible with all existing XP Rig Attachments, giving it unparalleled functionality.

The XP Wall System can be set up for any facility's focus. It can be a functional fitness hub for group classes with ball targets, battle ropes, suspension trainer anchors, and dip stations. Make it an ultra-stable wall-anchored strength center of half racks and platforms, Jcups, safety bars, cables, and landmine attachments. Turn it into a storage depot with attachable bar, plate, and resistance band storage. Whatever a gym's needs, the XP Wall System delivers .

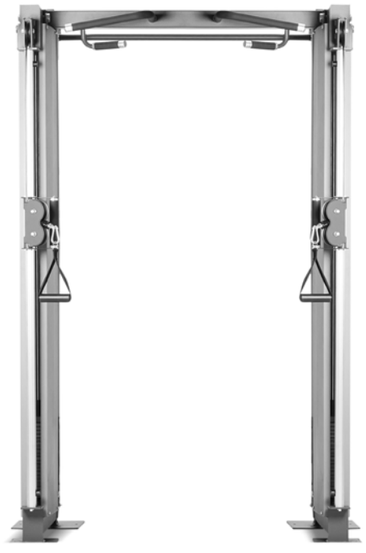

ZXP-SSRG-TP34
XP Wall Storage Rack

The XP Wall Storage Rack sits flush against often underutilized wall space, maximizing gyms' usable area, and storing anything and everything. From plates to dumbbells, kettlebells, bags, and balls of every size, it organizes all equipment close at hand alongside the other components of the modular XP Wall System, enabling an incredible array of workout possibilities while reducing time needed for workouts by keeping everything in one place.

ZXP-SSRG-TP29
XP Wall Training Bars

Stretching, calisthenics, suspension training, and body weight exercise are all about anchors and angles, and XP Wall Training Bars deliver in spades. Slide resistance bands or a suspension system around any of the bars to create a workout station that accommodates several users; use the bars to get deeper stretches in any muscle group; or include challenging calisthenic movements in circuit design to make full use of all the XP Wall System has to offer.

ZXP-RGAT-TP28
XP Wall Cable

The XP Wall Cable delivers all of the incredible versatility of cable with a smooth sliding pulley system, adjustable handle heights, and compatibility with all Cable Attachments. Every muscle group can be targeted from any number of angles and with any number of grips.

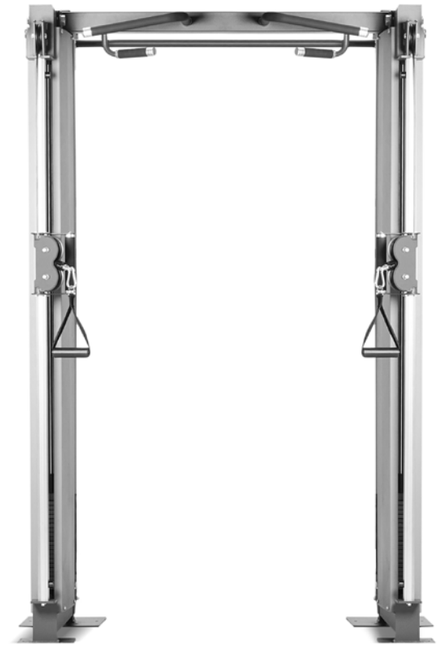

ZXP-RKHF-TP33
XP Wall Half Rack

The XP Wall Half Rack is a pivotal piece in the XP Wall System. It puts strength training alongside functional and flexibility, so users can seamlessly move from compound barbell lifts to accessory cable movements and body weight training for synergistic gains across all training categories. The end result is the ultimate realization of what the XP Wall System has to offer: stronger lifts and better performance in less time.

RIGS

The greatest gyms help clients enjoy intense, heavy workouts in less time with rigs and storage that use great design and great construction to deliver safety and stability while keeping everything they need close at hand.

Our collection of rigs includes much, much more than simple squat racks and shelves. These are pieces that integrate storage with stretching stations, suspension training hubs, and more in aesthetic packages that look perfect alongside other ZIVA® gear. A prime example of this design philosophy in action are the XP Freestanding Space Saving Racks and the XP2 Floor-Mounted Functional Rack.

Both integrate storage alongside a lifting rack. Both offer a plethora of options for expandability and customization. Both can be turned into focal points of a fitness facility, hubs of training and storage that serve more functions than can be listed here.

These, and all other rigs in our catalog, let gyms fit more equipment and functionality into tighter spaces for maximum efficiency and floorspace flexibility.

> ZIVA has proven to be an invaluable partner for Sweat440. Their commitment to excellence, seamless operations, and exceptional customer service have made a significant impact on our franchise network. I definitely recommend ZIVA to any fitness business looking for a reliable and high-quality equipment provider. Thank you, ZIVA, for being an integral part of our success story!

Cody Patrick

CEO

SWEAT 440

XP CABLE RIG

The ZIVA® XP Cable Rig is a groundbreaking fusion of traditional cable stack with the unparalleled adaptability of the XP Rig. The XP Cable component boasts a smooth-running pulley system, that ensures flawless operation with handles that can be set at any height, and it's fully compatible with all ZIVA Cable Attachments, offering endless workout possibilities. The integrated XP Rig accommodates all XP Rig Attachments — including options for storage and functional, strength, or suspension training — for extensive customization and an incredible array of functionality, transforming the way gyms are able to utilize their floor space.

Order Code	Item Description
ZXP-SSRG-TP30	XP Cable Rig

Specifications		Made with 3mm thick steel tubing with numbered laser-cut holes, locking bolts with locking fasteners, includes 8x stainless steel storage posts, a flying pull-up bar, 2x safety arms with protective PU covers and 2x steel J-Cups with protective PU covers. The cable features 2x weight stacks with a 2:1 pull ration and cable heights adjustable with a single hand.
Product Color		Charcoal / Grey Panels
Dimensions		186cm x 237cm x 241cm - 448kg
Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

XP CABLE STATION

The ZIVA® XP Cable Station represents a revolutionary integration of traditional cable stack with the dynamic versatility of our XP range of rigs and racks, setting a new standard for exercise variety and space utilization. This innovative combination introduces a seamless, smooth operating pulley system to this range, thus allowing movement from XP rig and rack body weight exercises, heavy strength training, and suspension exercises, to all that a cable machine is capable of, all without having to move around the gym. It increases total gym floor efficiency, elevating the overall workout experience with previously impractical exercise pairings.

ZVO URETHANE CABLE ATTACHMENTS

ZVO Urethane Cable Attachments are the best of the best for materials, construction, and design but their real strength lies in how light they are. These Cable Attachments do not weigh down the pulley and make the weight or handle height more difficult to adjust; they do not damage cable machines when they inevitably swing into them; and they do not hurt if and when users accidentally bonk themselves with them. And their skin with all around texturing adds the functional benefit of being super grippy, giving users greater endurance for greater gains.

Order Code	Item Description	Order Code	Item Description

XP CUSTOMISED RIGS

When it comes to deciding on a Rig system for your gym, sometimes customisation is what counts. Different facilities have different spatial requirements and different clientele have different goals.

At ZIVA, we aim to help every gym build the system that is right for them.

Here are the questions that will help you better know what you need:

1. **Where will you put the rig and what dimensions do you want it to take up?**
2. **Do you need it to be wall-mounted or freestanding?**
3. **Do you want it to be accessible from only one side, or do you want it to be double-sided?**
4. **What are the needs of your members and what XP Rig Attachments will address those needs?**

Whatever your needs, we are here to help you fulfill them.

Available in custom colors and configurations.
Call for further details.

XP2 FLOOR-MOUNTED FUNCTIONAL RACK

The ZIVA® XP2 Floor-Mounted Functional Rack takes the traditional squat bay used for heavy barbell movements and combines it with storage and customizability. Crafted using commercial-grade thick steel tube and plate, the storage portion of this rig includes 4x shelves made to fit dumbbells, kettlebells, and functional training equipment, and 1x shelf specially made for large wall or core fit balls. The squat bay, built with the same ultra-durable commercial-grade materials, comes with a pair of J-Cups and safety arms, and can be added onto with the entire range of XP2 Accessories for additional storage and/or functional fitness pieces. Pull-up bars span the entire structure and an included punching bag and suspension point further make the XP2 Floor-Mounted Functional Rack a gym centerpiece designed to meet a variety of needs.

VELOCITY
HIIT CARDIO

This marks a bold new chapter in our journey—ZIVA's first step into the world of cardio, and a natural evolution of our performance-first philosophy. The VELOCITY Series reimagines cardio through the lens of resistance enhanced HIIT, delivering explosive power, smooth resistance, and total-body output with commercial-grade toughness, intuitive adjustability, and real-time performance tracking. ZIVA Velocity is cardio without compromise and this is The Way to Live.

1. 5” Hi-Fi LCD display provides real-time metrics, including calories, cadence, watts, heart rate, and more
2. Bluetooth connectivity for seamless tracking
3. Built with a durable aluminum alloy and steel frame
4. Adjustable footrests for optimal comfort
5. 10 adjustable resistance levels for tailored intensity
6. Foldable design and mobility wheels make it easy to store and move

ZHX-RWAT-6001

VELOCITY ROWER

The ZIVA Velocity Rower blends smooth, fluid motion with unmatched functionality, delivering a full-body cardio experience engineered for high-intensity environments. Crafted with a durable steel and aluminum alloy frame in ZIVA’s signature design language, this sleek machine looks as powerful as it performs. Its compact, foldable design and integrated mobility wheels allow for effortless repositioning and smart storage, giving studios and gyms complete programming flexibility. With 10x adjustable resistance levels, ergonomic handles, and precision footrests, the Velocity Rower adapts to every athlete’s intensity. From boutique HIIT studios to performance-driven training zones, this rower was built to push harder, move smoother, and go further.

HX UNIVERSAL STORAGE RACK

Built to fuel the fierce pace of HIIT-style training, the ZIVA® HX Universal Storage Rack is a statement piece that organizes chaos into clarity. With space for everything from kettlebells to battle ropes, sandbags to weight plates, this rack doesn't just store equipment—it puts it on proud display. Designed for the heart-pounding rhythm of high-intensity group classes, it elevates the training environment by keeping gear off the floor and within easy reach, so athletes can stay locked in, and communities can train without distraction.

Order Code	Item Description
ZHX-MSFR-4518	HX Universal Storage Rack

Specifications		3mm square steel tubing and wheeled base for easy portability. Multi-storage rack stores on top shelf wall balls, second shelf kettlebells, third shelf power sandbags, and bottom shelf bumper discs and fractional discs with two battle rope hooks on either side.
Product Color		Black powder-coated finish
Dimensions		L:181cm x W:81cm H:188cm - 105kg
Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

HX POWER SLED 2.0

The ZIVA® HX Power Sled 2.0 is built for those who refuse to back down from a challenge. Engineered for explosive power, endurance, and full-body strength, this sled is a functional training powerhouse. With dual-pole push handles on both sides, athletes can drive forward from multiple heights, grasping wherever is most comfortable or most challenging, offering endless variation. The conical pole inserts minimize vibration for a smoother, more controlled push and make setup effortless—insert or remove, and go. Crafted from ultra-tough 3mm thick steel and finished with a scratch- and corrosion-resistant coating, this 50kg sled is made to take a beating and keep going. Stack on the weight, grip tight, and push limits.

Order Code	Item Description
ZHX-PWSD-4141	HX Power Sled 2.0

Specifications	Made with commercial-grade steel tubing, plate steel and high tensile hardware.
Color Options	Black powder-coated finish
Dimensions	L:86cm x W:51cm x H:101cm - 50kg
Warranty	Limited 10 year warranty on frames and welding, 1 year on plastic parts

HX DUAL WALL BALL TARGET

Wall balls put the fun in functional fitness but to truly get the most out of these all-around endurance and explosivity training tools, there's nothing like using it in conjunction with the HX Dual Ball Target. The HX Dual Wall Ball Target attaches to any XP Rig or Rack to offer focal points during wall ball workouts, helping to build up feelings of hype and energy for better, more fun, more competitive yet always accessible workouts.

Order Code	Item Description
ZHX-RGAT-0590	HX Dual Wall Ball Target

Specifications	Made with commercial-grade 6mm iron plating
Color Options	Charcoal / White
Warranty	Limited 2 year warranty

ZIVA

HX RUBBER BUMPER DISC

Built for the explosive energy of barbell-focused functional fitness, the ZIVA® HX Rubber Bumper Discs are the go-to solution for fast-paced classes centered around Olympic-inspired lifts. Made from dense, durable, floor-friendly rubber, these plates absorb impact, reduce bounce, and withstand repeated overhead drops with ease. The chrome-plated internal hub ensures a smooth, reliable glide on and off the barbell, while beveled edges make loading and unloading fast—because when the pace is high, every second counts.

Order Code	Item Description
ZHX-BPRB-5296	HX Rubber Bumper Disc 25kg

Coating		Rubber surface coating
Color Options		Black / White
Warranty		Limited 2 year warranty

HX RUBBER FRACTIONAL DISC

Progress isn't always made in big jumps—and the ZIVA® HX Rubber Fractional Discs are built for lifters who know that strength is forged in the details. Precision-engineered in small, manageable increments, these discs empower athletes to make steady, measurable gains while reducing injury risk. Finished in durable rubber for safety and floor protection, and equipped with a chrome central insert, each disc glides effortlessly onto the bar and rotates smoothly through every rep—ideal for high-volume training and Olympic-inspired lifts.

Order Code	Item Description
ZHX-BDRB-9049	HX Rubber Fractional Disc 2.5kg

Coating		Rubber surface coating
Color Options		Black / White
Warranty		Limited 2 year warranty

HX BATTLE ROPE W/SLED PULL CLIP

The ZIVA® HX Battle Rope with Sled Pull Clip transforms a functional fitness essential into a dynamic, dual-purpose powerhouse. Designed for the rigors of high-volume commercial use, this rope not only delivers explosive upper-body and core conditioning, but also doubles as a sled pull training tool, thanks to a heavy-duty clip integrated on one end for fast attachment to any sled with a D-ring or anchor point. Whether used for undulating waves, slams, or resistance drags, this rope offers unmatched versatility for circuit stations, bootcamps, and strength-conditioning zones.

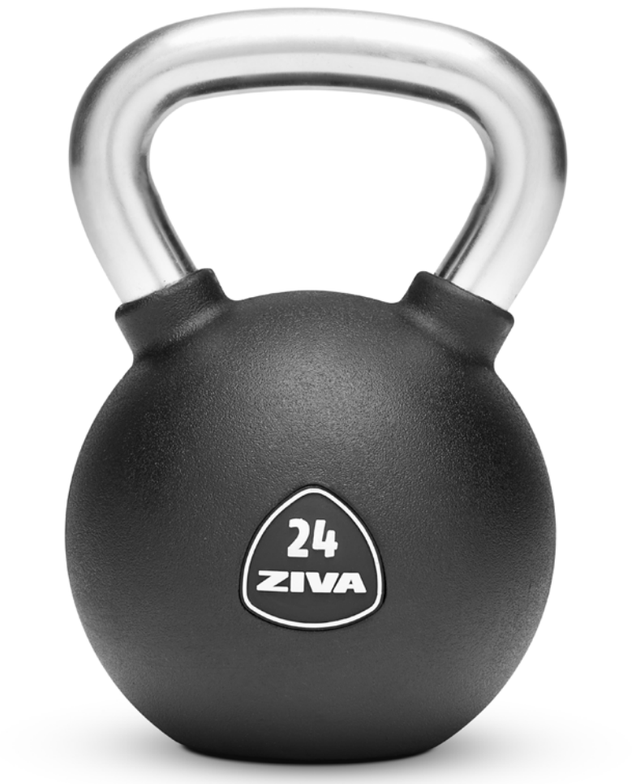

Order Code	Item Description
ZHX-BTRP-0910R	HX Battle Rope With Sled Pull Clip (3.8cm x 12m)
ZHX-BTRP-0914R	HX Battle Rope With Sled Pull Clip (3.8cm x 15m)

Specifications		PP and nylon intertwined rope with rubber handles, steel securing ring, patented wrist straps and a detachable steel pull clip.
Product Color		Black
Warranty		Limited 1 year warranty

HX VIRGIN RUBBER KETTLEBELL

The ZIVA® HX Virgin Rubber Kettlebell is designed to deliver performance that hits hard—without hitting floors hard. Ideal for high-intensity, functional training environments, this kettlebell features a premium virgin rubber coating that softens every drop with reduced bounce, quieter landings, and superior surface protection. Its sleek, ultra-durable chrome handle resists scratches and dings, offering a secure grip and polished aesthetic that makes it as much a visual statement as it is a performance tool. Built to be bold, tough, and relentlessly versatile, this is the kettlebell your functional fitness zone deserves.

Order Code	Item Description
ZHX-RBKB-4326	HX Virgin Rubber Kettlebell 16 kg
ZHX-RBKB-4328	HX Virgin Rubber Kettlebell 24 kg
ZHX-RBKB-4330	HX Virgin Rubber Kettlebell 32 kg

Coating		Solid precision casting, premium rubber surface coating
Color Options		Black / White
Handle		Hard chromed handle
Warranty		Limited 2 year warranty

HX POWER SANDBAG

The ZIVA® HX Power Sandbag brings raw, real-world resistance to functional fitness floors. Designed to challenge stability, coordination, and control, this dynamic training tool features an internally shifting weight core that keeps muscles firing with every move. Whether it's being thrown, dragged, or lifted in high-intensity group settings, the HX Power Sandbag builds functional strength through instability. Its grippy, soft-touch polyester shell wraps a core of rubber-encased sand and steel for a clean feel and rugged durability. Multiple reinforced handles open up endless training possibilities for classes that move fast and train harder.

Order Code	Item Description
ZHX-SPPB-9952	HX Power Sandbag 10 kg
ZHX-SPPB-9956	HX Power Sandbag 20 kg
ZHX-SPPB-9958	HX Power Sandbag 30 kg

Warranty	Limited 1 year warranty

FUNCTIONAL

Beautifully built functional fitness equipment designed to inspire. Balls, bags, boxes, bars, and every piece of essential equipment for the modern functionally focused premium fitness facility.

Our functional fitness equipment has always looked great, but now with a fully unified aesthetic language speaking across every piece, this equipment is the perfect fusion of form and function. ZIVA® has been crafting functional fitness pieces since functional fitness was a concept, and our experience has helped us refine our pieces and our process so that our current offerings are more usable and longer lasting than any others available.

This focus on perfect performance is matched with great looking design that isn't limited to the workout equipment; it's been equally applied to all our functional fitness storage solutions, as well. This is crystal clearly demonstrated with our Storage Trees: sleek, slim profiles clad in black with rugged, ultra-long-lasting steel tube shelving that not only organizes but displays these aesthetically advanced pieces of equipment, maximizing usable floorspace while cutting clutter and beautifying the overall gym environment.

“We rely on ZIVA for all our free weights and functional equipment needs. Excellent equipment, good value and great service from ZIVA at a local level. Delivery times have kept up with our aggressive build program and we are a happy customer. I like the fact ZIVA keeps evolving with the changing trends in the industry and endeavor to stay ahead of the curve.”

ZEL ZEP EX FUNCTIONAL TRAINING STATION

The ZIVA® EX Functional Training Station offers the ultimate combination of storage, display, stretching, and training. A central pull-up bar allows for several grip variations; 8x adjustable PVC-lined shelves store and display functional training equipment; 2x vertical bars serve as anchors for rope and stretching; 2x specialized suspension trainer anchors round out its offering; and a TV bracket lets gyms turn this into a total training solution. Precision designed to transform typically wasted corners into premium athletic attractions, the EX Functional Training Station serves as an immediate signal to all visitors that a gym is head and shoulders above the competition.

Order Code	Item Description
ZEX-SSMF-0770	EX Functional Training Station

Specifications	200mm wide main frame, full commercial 3mm thick steel, 16mm bolts, floor mounted with safety extensions for extra stability, hard-wearing powder coating *Note: Shelving positions can be changed to suit your own set up* With pull-up bar, 2 x suspension points, 2 x rope pull bars, TV Bracket (TV not included)
Product Color	Black powder-coated finish
Storage	Fits wall balls, medicine balls, power core bags, slam balls, kettle bells, dumbbells, and all small accessories
Dimensions	331cm x 210cm x 235cm - 440kg
Warranty	Limited 10 year warranty on frames and welding, 1 year on plastic parts

XP FUNCTIONAL CORNER

The ZIVA® XP Functional Corner transforms often difficult to utilize corner spaces into training and storage hubs. This innovative piece, crafted with commercial-grade steel tubing and thick plate steel, with reinforced welding across the entire frame, includes stretching and pull-up bars, a multitude of anchor points for suspension and resistance band training equipment, 8x PVC-lined shelves, hooks for holding compatible yoga mats, and it comes with a range of options that allow for extensive expansion, both for storage and for exercise. Alone, the XP Functional Corner is an optimal solution for maximal space utilization. Combined with additional XP Accessories, it can turn previously forgotten corners into the backbone of great gyms.

Order Code	Item Description
ZXP-XCRN-0285	XP Functional Corner 8' (243cm)

Specifications	Made with commercial-grade 3mm tubing, laser-cut and welded. Utilizing thick plate steel for the shelving. Commercial quality.
Product Color	Black powder-coated finish
Dimensions	ZXP-XCRN-0285 227cm x 227cm x 243cm - 450kg
Warranty	Limited 10 year warranty on frames and welding; 1 year on plastic parts

ZEL ZEP EX FUNCTIONAL STRETCH STATION

The ZIVA® EX Functional Stretch Station transforms often underutilized corner spaces into stretching and cool down hotspots. The Station offers shelf space for storage and display; a versatile stretching ladder that allows for stretching from nearly any angle; 2x specialized suspension trainer anchors; 2x vertical bars for anchoring ropes or other equipment, or for stretching; brackets for mat storage; a pull-up bar; and TV bracket that lets gyms turn this Station into a digital personal trainer. With heavy-duty 3mm thick steel construction and scratch- and wear-resistant black powder coating, this is an athletic attraction that is built to last.

Order Code	Item Description

ZVO SLAM BALL

Full-body strength and endurance; intense, explosive cardio; and challenging rotational core exercises combine in one durable, elite-level tool guaranteed to push performance to its absolute limits. The ZVO Slam Ball features a weighted, sand-filled center wrapped in a tough PVC shell with gripping tire tread skin, and is made to be thrown with abandon over and over again. Overhead slams, woodchoppers, Russian twists, and more unique full-body exercises test the limits of users' core strength and endurance while building shoulder, chest, arm, and leg muscle in a holistic fashion that includes often neglected supporting and stabilizer muscles.

POWERWAVE BAG

The PowerWave Bag, born from a collaboration with the original creators of the PowerWave, sets a new standard for bag-based workouts. Its distinct, slightly curved design means it cradles perfectly over the back of the neck or across and shoulder and ergonomically placed cushions provide further comfort as well as even weight distribution. Its topside handles make the PowerWave useful as a functional fitness barbell stand-in, while the underside looping strap handles are ideal for swinging rotational movements, or simply as security for when users' grips fail. However the PowerWave is woven into a workout, it pushes functional fitness training sessions to new highs with its versatility and style.

SIGNATURE STEEL COMPETITION KETTLEBELLS BY STEVE COTTER

The ZIVA® Signature Steel Competition Kettlebells by Steve Cotter are the pinnacle of quality and design for this foundational functional fitness tool. Created with the expert input of kettlebell pioneer Steve Cotter, these kettlebells are made to be absolutely unbreakable. They feature a crack-, corrosion-, and scratch-resistant black powder coating and vibrant yellow, easy ID numbering, and come with a full steel handle and bell that elevate them beyond mere exercise equipment to the level of functional sculpture, something with which users will be proud to sculpt their bodies.

EX KETTLEBELL RACK 2.0

The ZIVA EX Kettlebell Rack 2.0 holds up to 10x kettlebells on its PVC-lined and -edged shelves, making it a storage space that both protects and shows them off. This Rack is built tough with a solid steel, heavy-duty frame crafted from plate steel and steel tubing that have a scratch- and corrosion-resistant black powder-coat finish, and its grey accent panels can be customized with any Pantone color. Protective foot pads keep floors pristine while handsome chrome hardware allows for bolting in place, but with the Rack's impressive 55kg heft, not including the kettlebells' weight, this is hardly necessary.

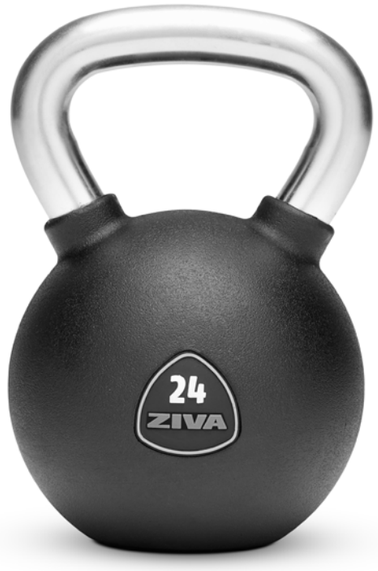

Order Code	Item Description
ZEX-KB05-7316	EX Kettlebell Rack 2.0

Specifications		Made with solid steel frame, welded, black panels and chrome colored hardware
Product Color		Metallic black powder-coated finish with black panels
Storage		Fits up to 10 x kettle bells
Dimensions		125cm x 75cm x 55cm - 55kg

SL VIRGIN RUBBER KETTLEBELLS

The ZIVA® SL Virgin Rubber Kettlebells use long-lasting wear-, water-, and corrosion-resistant virgin rubber coating that falls more quietly, with more bounce and less impact than its counterparts, so it won't damage surroundings even during the most intense HIIT workouts. Its ultra-durable chrome grip is naturally more protected against dings and scratches than cast iron or plastic and serves a bold, iconic style that makes them gym centerpieces worthy of display.

SL 3-IN-1 PLYO BOX WITH INNER PU FOAM

High-intensity high jumps, cardio building low step ups, and a happy medium that builds both strength and stamina, all with low risk, low impact, and superior stability in a single piece of equipment. That's the SL 3-in-1 Plyo Box. This Plyo Box offers 3 different intensities. Turn it one way, and it's a tough 20-in. step platform. Turn it another, and it's a high-intensity jump workout tool. Give it one more turn to 30-in. and it's a workout that builds speed, explosivity, and power. Any way you turn it, it's a functional fitness mainstay. And despite its easy-on-joints softness, this Box is built tough with underlying wooden platforms on top of a PU foam core, all wrapped in commercial-grade, high-durability anti-slip PVC skin.

Order Code	Item Description
ZSL-SFPY-4013	SL Soft 3-in-1 Plyo Box with PU Foam (51cm x 61cm x 75cm)

Specifications		Made with a solid PU foam inner core, inner wooden platforms and with a PVC outer coating
Color Options		Black / White

STUDIO

Every piece is made to facilitate as wide a range of functional exercises as possible but have been designed with slim profiles and small footprints to allow for maximally efficient use of floorspace.

In this category, we've crafted a collection uniquely tailored to the needs of dynamic boutique gyms and training studios. To meet their needs, we have created storage solutions that stash more equipment in less space while still looking great. We have designed equipment that focuses on functional fitness and other highly sought after workout styles and have built mobility into storage pieces to make it easier to train more clients in less time.

Our commitment to small businesses in the fitness industry is what lies at the heart of the ZIVA® Performance Series. It is exemplified in all this equipment but particularly the Performance PLUS 4-Tier Storage Rack. This easily movable shelving unit is able to pack everything trainers might need to give clients a complete functional fitness workout, and because it can be moved so easily throughout gyms of any size, it allows them to shuttle seamlessly from one area, one exercise, and one client to the next so they can do more, faster, with less effort.

PERFORMANCE RPU HEXAGON DUMBBELL

Dumbbells offer a sleek, eye-catching and longer-lasting alternative to the shabby, steel-grey iron chunks of yesteryear. These dumbbells feature cutting-edge RPU coatings over the dumbbells' heads, giving them a textured feel, a vibrant look, and a scratch- and scuff-resistant, long-lasting life. Their straight handles are fully knurled and come with a rust- and scratch-proof chrome coat. They have a modern aesthetic and no-roll design. In a word, they are a shining example of always reliable, world-class ZIVA quality.

PERFORMANCE COMPETITION KETTLEBELL

The kettlebell is a beautifully simple, full-body strength-building and conditioning tool. ZIVA® Performance Competition Kettlebells take this conventionally unadorned iron ball and add an eye-catching splash of competition color. With rust- and corrosion-resistant paint in pink, blue, yellow, purple, green, orange, and red, its ultra-durable chrome handle helps build grip strength and is less prone to dings and scratches than cast iron or plastic. These iconic, boldly styled kettlebells are gym centerpieces worthy display, and even more worthy of great competition.

PERFORMANCE SLED

For the functionally focused gym frequented by sport-specific training clientele, the ZIVA® Performance Sled is a crucial piece of equipment. Built to be ultra-durable, the sled consists of a steel frame and 4x exterior bars – two on each side so it can be pushed back and forth without having to turn it around – and a central loading bar, all with a wear-, rust-, and corrosion-resistant black powder-coating. The sled itself weighs 26kg and the central bar can fit up to 10x bumper plates for an intense full-body workout that develops users' legs, core, arms, shoulders, and explosivity.

Order Code	Item Description
ZFT-PWSD-4016-BK	Performance Sled

Specifications		Made with steel frame and bars
Color Options		Black powder-coated finish
Storage		Fits up to 10x bumper plates
Dimensions		86cm x 51cm x 91cm - 26kg
Warranty		Limited 5 year warranty on frames and welding, 1 year on plastic parts

XP SUSPENSION TRAINING SYSTEM 2.0

The pinnacle of functional fitness versatility has been upgraded for the 21st century. The ZIVA® XP Suspension Training System 2.0 improves on yesteryear's bodyweight trainer design with a range of innovative features. Front-facing forged steel cam buckles make on-the-fly length adjustments fast and easy; commercial-grade, certified steel carabiners with keylock noses allow easy attachment and removal of handles and anchor; and a reinforced strapping loop provides exceptional load-bearing capacity. The XP Suspension Training System 2.0 offers all the benefits of a traditional suspension trainer but with easier operation and added flexibility thanks to its unique, individually anchored handle strap design, allowing each handle to be anchored separately and opening up exponentially greater exercise variation and workout design options.

Order Code	Item Description
ZXP-APUS-0588	XP Suspension Training System 2.0
ZFT-WASK-6690-BK	Performance Bodyweight Training Wall Anchor Kit

Specifications		Made with nylon strapping and with chrome & painted hardware
Color Options		Black / Grey
Warranty		Limited 1 year warranty

PERFORMANCE PLYO BOX

How do you deliver high-intensity high jumps with low risk and low impact? With the ZIVA® Performance Plyo Box. Our Plyo Box consists of a commercial-grade, high-durability anti-slip PVC skin that easily goes on and off of a PE foam core with underlying wooden platforms that athletes can set any of 3 ways for different intensities. Turn it one way, and it's a tough 20" step platform that works the calves, hamstrings, and glutes. Turn it another, and it's a high-intensity jump workout tool that challenges users to leap 24" into the air and land gracefully on its soft surface. Give it one more turn, and it demands users to soar to 30" up for workouts that build speed, explosivity, and power.

Order Code	Item Description
ZFT-TRPY-4014-BKGY	Performance Plyo Box

Specifications		Made from PE foam inner core, inner wooden platforms and with PVC outer coating
Color Options		Black / Grey / White
Warranty		Limited 1 year warranty

PERFORMANCE WOODEN PLYO BOX

Built to withstand intense HIIT workouts at the high frequency of a commercial gym, the ZIVA® Wooden Plyo Box offers a satisfying, reverberating thud with each jump onto its stable, sturdy landing surface. Crafted from commercial-grade, high-durability composite plywood with a bonded exterior and beveled edges, this no-nonsense functional fitness mainstay offers 3 different intensities depending on which way it's turned. Whether at 50, 60, or 70cm, it delivers workouts that build speed, explosivity, and power with a head turning minimalist aesthetic.

Order Code	Item Description
ZFT-PBWD-7233	Performance Wooden Plyo Box

Specifications		Made from plywood
Color Options		Natural brown
Dimensions		50cm x 60cm x 75cm
Warranty		Limited 6 month warranty

PERFORMANCE BATTLE ROPE

The ZIVA® Performance Battle Rope delivers both the perfect HIIT tool and a one-stop solution for complete upper body and core building workout. All of our Battle Ropes are built light enough to facilitate an exhaustive cardio workout for athletes, yet with the heft to build strength in shoulders, arms, back, and core. Woven from sturdy nylon with tough rubber handles, the Battle Rope is built to be rugged and durable enough to withstand the constant beating of the busiest studios.

Order Code	Item Description
ZFT-BTRP-0912-BK	Performance Battle Rope (5cm * 15m)
ZFT-BTRP-0913-BK	Performance Battle Rope (3.8cm * 10m)
